FHA/HUD SECTION 221(d)(4) MULTIFAMILY CONSTRUCTION OR SUBSTANTIAL REHABILITATION

- FHA Application Fee** HUD requires a fee of 0.3% of the requested mortgage amount for the review of the Firm Commitment application (0.15% due at Pre-Application for two-stage processing).

 - Escrows/Reserves** Prior to the construction period, HUD requires reserves of 4% for working capital (2% can be used for construction contingency), initial operating deficit, interest, taxes, and insurance. The balance of the reserves will be released to the borrower after six months of consecutive break-even operations. After the completion of construction, HUD requires a cash escrow for the replacement of short-lived items. Additionally, HUD requires monthly escrows for property insurance, real estate taxes and MIP. Escrows can be cash or letter of credit.

 - FHA Inspection Fee** Inspection fees are 0.5% of mortgage for new construction and 0.5% of improvements for substantial rehabilitation. The inspection fee is payable at closing.

 - Third Party Report Costs** The costs for third party reports, such as appraisal, property condition report, environmental reports and other organization costs may be included as mortgageable soft costs in the mortgage calculation.

 - Closing Costs** Includes standard transaction costs such as the borrower's legal fees, title insurance and survey.
